

# THE FLAT VERNACULAR COLLECTION [ by: *Payton & Brian* ]

Flat Vernacular is a **Brooklyn-based** design company that specializes in original hand-drawn, hand-printed, and bespoke wallpapers.

We take great **time and care** with each project that comes to us. Keeping one foot firmly in fine art and one in design allows for our visual capabilities and design skills to remain expansive yet thoughtful. The idea behind our selection of patterns was to highlight three new versions of our current wallpaper patterns which all describe different environments: **flora, mountains, and the city.**
